PROFILE

Dedicated and collaborative individual with 1+ years of experience using AWS Management Console, passionate about building a long-term career in the information technology (IT) industry, especially *Cloud Computing*. My interest in Cloud Computing began when I learned how organizations can trade upfront capital expense for variable expense, benefit from massive economies of scale, and stop guessing capacity. I am now actively seeking cloud-focused opportunities where I can apply this mindset to help design secure, scalable, and cost-effective solutions.

EDUCATION

Bachelor of Science, Information Technology; Concentration: Undeclared

George Mason University (GMU) – Fairfax, Virginia

May 2027

GPA: 4.0

Associate of Science, Information Technology

Northern Virginia Community College (NOVA) – Annandale, Virginia

May 2025

GPA: 3.18

CERTIFICATIONS

AWS Certified Solution Architect – Associate (In progress)

Expected by 03/01/2026

AWS Certified Cloud Practitioner - Foundational

05/2025 – 05/2028

Google Cybersecurity by Google

05/2025

SKILLS

Programming Languages: JavaScript, Python, SQL

Cloud Platforms: AWS

Operating Systems: Linux (Amazon Linux) – SSH, Bash, EC2 environment; Windows

Applications: MS Office, Outlook, MS Access

Developer Tools: Git, GitHub, Bootstrap, VS Code, Chrome DevTools

Cloud Services: AWS EC2, S3, RDS, DynamoDB, Lambda

PROJECTS

Cloud Networking Lab

January 2026

- Build a virtual private cloud (VPC) with public and private subnets, custom route tables, and network ACLs.
- Configured Internet Gateway, NAT Gateway, and VPC endpoints to securely route traffic between public EC2 instances, private EC2 instances, and AWS services such as S3 and CloudWatch.
- Implemented security groups and VPN/Direct Connect concepts to understand hybrid connectivity between an on-premises data center and AWS.

Personal Web Portfolio

May 2025

<https://rilyblaze.github.io/Blaise-portfolio/>

- Build a personal web portfolio using HTML, CSS and JavaScript to showcase academic and cloud-related projects.
- Implemented a responsive, clean layout to ensure usability across desktop and mobile devices.
- Deployed the portfolio using Git-based workflow and hosting on GitHub Pages, enabling easy updates and version control.

RELATED WORK EXPERIENCE

Professional Security Officer – Security Team Lead

Allied Universal – Chantilly, Virginia

April 2024– Present

- Led a team of 5 security officers to manage access control for staff, visitors, and contractors, ensuring only authorized personnel could enter restricted areas
- Performed badge checks, visitor registration, and ID verification, maintaining detailed logs that supported incident investigations and audit requirements
- Took on additional responsibilities beyond standard post orders, including training new officers, coordinating shift coverage, and escalating security or safety incidents to management.
